Create account on Kaggle and download Road Accident Dataset

Steps to be followed:

1. Open Kaggle.com on your system's web Browser.
2. Create a fresh account by clicking on Register, if you already don't have one.
3. Fill in all the necessary details required to create an account.
4. Click on the below link to access the dataset.
   https://www.kaggle.com/datasets/jhalls/accident-data/data

5. Once done, click on download to download the dataset.
6. This will download a zip file in your system.
7. Extract the contents of the zip file and you have the dataset.
8. Click on the file to open it in MS-Excel.
9. Once opened follow the recorded session to build the Dashboard.

10. Raise a ticket if you have any issues accessing the dataset.
